

EASC Career Event:

Japanese Interpretation Demonstration

Friday
September 7, 2018
5:30– 7:00pm
Page Hall, Rm 10
(1810 College Ave, OSU Campus)

通訳

Kenneth Lantz

Senior Manager/Chief Engineer, Power Plant Division, Hybrid Dept/Engine Design Dept
Honda R&D Americas, Inc.

Koji Sasamoto (on assignment from Honda R&D, Tochigi, Japan)

Senior Engineer, Transmission Division, Honda R&D Americas, Inc.

Kay Nason

Senior Manager/Chief Interpreter, Language Services, Honda R&D Americas, Inc.

This simultaneous interpretation demonstration, given by Ms. Kay Nason (Head Interpreter at Honda Americas), will show how interpretation is done in a highly technical and business context. Mr. Lantz will present "**Honda R&D Overview**," and Mr. Sasamoto will present "How Super-Handling All Wheel Drive works (SH-AWD)." Ms. Nason will simultaneously interpret their presentations and the entire event from English to Japanese and Japanese to English. Also, she and the engineers will discuss what is required of interpreters to survive and exceed at highly technical and fast-paced environment that constantly requires innovations.
